

RUSSIAN SITUATION WILL MENACE WORLD UNTIL PEACE COMES

Premier Lloyd George Sees Danger in Present Conditions in Russia—Says Russia Wants to Fasten Soviet Rule on Poland—No Free Government Can Deal With Soviet

LUCERNE, Aug. 23.—(By The Associated Press.)—An official statement regarding the conferences today between Premiers Lloyd George and Giolitti says they agreed to the urgent need of the re-establishment of world peace and that the first guarantee is to be found in the various treaties already concluded.

"The victors in war," it continues, "should display a spirit of moderation in their enforcement of terms, and the vanquished a spirit of loyalty in their execution. With this aim, England and Italy trust that the good understanding reached at Spa will be further developed to cover all outstanding questions."

Russian Situation Menace

"Before peace is fully established, however, there are a number of important questions to be decided. Until peace is fully established between Russia and the rest of the world an atmosphere of disturbance and unrest will continue to menace the world."

"Therefore, the British and Italian governments have been taking steps, in face of much misrepresentation, to restore communication with Russia and the world. Therefore with regret they have just heard that the soviet government, despite repeated assurances to the contrary have sought to impose on Poland, conditions incompatible with national independence."

"The government of Poland is based on the choice of the whole adult male population without distinction of class and this so-called civil army to be drawn from one class only, referred to in the fourth condition of the soviet terms, is only an indirect method of organizing a force to overthrow by violence this democratic institution and substitute for it the despotism of a privileged few who may have absorbed the doctrines of Bolshevism."

"We cannot help apprehending that when the detailed conditions of the composition of this force, are revealed later on, they will be found to be moulded on the plan of the Russian red army."

"For one nation to insist as a condition of peace with another that the force organized for the protection of life, property and order for the latter country shall be drawn from only one class of its citizens, to the exclusion of all others is an unwarranted infringement of the liberty, independence and self-respect of that country."

"To have added such a condition after Kamenoff's pledges, is a gross breach of faith, and negotiation of any kind with a government which so lightly treats its word becomes difficult, if not impossible."

Soviet Government for Poland.
The soviet government has rejected the suggestion for a truce under conditions which would have guaranteed Russian territory and has continued its career of invasion of Poland, with a view to conquest of that country for soviet institutions. If the soviet government, notwithstanding the punishment its aggression has brought upon it, refuses to withdraw its sinister proposal but continues the war to force its acceptance on the Polish people, no free government can either acknowledge or deal with the soviet oligarchy."

"The British and Italian governments are alarmed at the indefinite prolongation of the present state of conflict among nations. The peoples engaged can bring nothing but ever increasing misery to the peoples of the world at large."

"The British and Italian governments therefore are united in urging that every effort should be made to end the existing strife between nations."

CHICAGO, Aug. 23.—Governor Cox, Democratic nominee, probably will be subpoenaed and compelled to appear before the senate campaign committee which today announced plans for investigating the Republican and Democratic national campaigns unless he comes of his own free will, a member of the committee told The Associated Press tonight.

This member of the committee said its members felt that Governor Cox must prove his charges that the Republicans were raising a \$15,000,000 campaign fund or withdraw them and that the committee was prepared to go to any length to obtain evidence.

No official subpoenae will be issued, however, until the committee meets next Monday.

"If Governor Cox has not given us a satisfactory reply by that time I feel certain a subpoenae will be issued," he said.

The position as outlined then was that the allied and associated powers should unite in a declaration favoring the preservation of the integrity of Russia, such a declaration to be accompanied "by the announcement that no transgression by Poland would be permitted."

The British reply, legation officials said, would set at rest any suspicious that Poland was contemplating an offensive war against Russia.

Unable to Get Quorum Because of Absence of Members

ARGUMENT ON RESTRICTING ORDER

NASHVILLE, Tenn., Aug. 23.—Argument on the order restricting state and legislative officials from testifying to Washington, Tennessee's ratification of the federal suffrage amendment may be heard Wednesday or Thursday, it was thought tonight, though no agreement had been reached. The order was extended today to include the chief clerks of the senate and house and was amended to cover the action of the house in transacting business Saturday, when it was not at any time constitutional.

DEBS TAKES SHOT AT EVERYTHING IN CELL CAMPAIGN

Harding and Cox Remind Him of Two Humpty Dumpties

WILSON PRESENTED POLES WITH BACON

CHICAGO, Aug. 23.—The first of a series of statements which will replace the speeches in the campaign of Eugene Debs, a Socialist nominee for president now in Atlanta penitentiary, was issued by Socialist national headquarters. Mr. Debs branded the league of nations controversy as a dishonest issue and said the biggest question before the public was the coal shortage. He declared that while a shortage of cars was making it impossible to meet the demands for coal, "Mr. Wilson has had made by special executive order four thousand cars of a special design to aid the aristocracy of Poland to crush out the only genuine democratic government."

The Rev. Irvin St. John Tucker, now under twenty years sentence in Leavenworth for violation of the espionage law has been appointed to interview Debs and act as his spokesman.

Denounces Old Parties.
Besides denouncing the Republican and Democratic parties, bitterly attacking President Wilson and Samuel Gompers and branding the Farmer-Labor party as a one campaign organization that will never survive this year's battle Mr. Debs discussed the recent railroad strike.

He said that Senator Harding and Governor Cox, "remind me of two humpty dumpties. They are stuffed people, not real."

"The people have known what their government was doing in opposing the Russians," he added, "It was kept a very private secret until revealed by foreign despatches and then Secretary Baker was forced to confess the war department had loaned \$100,000,000 to the Polish government on the basis of notes not worth the paper they were written on. He presented them with \$20,000,000 worth of American bacon which was not 'available' for the American people—although bacon is 65 cents a pound at home."

In addition to the information to be given the committee, Governor Cox said he would make public other facts in his address.

Declaring that he did not expect to testify before the senate committee, Governor Cox said: "I will send the matter to this committee later. All of the information I have will be given to the public and, therefore, I don't see any use in going before the committee. I think also that as a candidate I should give it out in such manner as I see fit but I have no disposition of course to conceal anything from them that I have myself."

"I will give out my information as I think the public interest demands and I think I should be the judge as to when it is to be given."

RUSSIAN RETREAT HAS DEVELOPED INTO A PANIC

Some Regiments are Reported to Have Thrown Away Their Weapons and Officers Are Using Their Side Arms to Restore Order—Cattle and Infantry Intermingled

BERLIN, Aug. 23.—The Lokel Anzeiger's correspondent on the Russian front reports that the Russian retreat has developed into a panic under pressure of the Polish cavalry. Herds of cattle, cavalry and infantry are intermingled in the flight. Officers are trying to restore order with their revolvers. Some of the regiments have thrown away their weapons.

The correspondent of the Tageblatt at Prosen says the first Russian army is in full retreat toward Grodno. The staff of the fourth army and all the revolutionary committees have evacuated Lomza. The revolutionary government also is in flight. Lomza was pillaged before the evacuation.

It is reported that strong Russian reserves are stationed at Grodno and are being sent on toward Bialystok. The Bialystok-Brest-Litovsk railway is in the hands of the Poles, consequently, retreat in the south-easterly direction is impossible. The revolutionary committees have fled from Grajevo and other places.

May Not Allow Steamer to Land.
LONDON, Aug. 23.—Unless Sir Reginald T. Tower, high commissioner of the League of Nations at Danzig has received instructions from the French and British governments to the contrary it is unlikely he will allow the American steamer North Pine, now on its way from Salonica to unload at Danzig.

She is reported to be in charge of a party of Poles and carrying munitions for the Polish army. Sir Reginald Tower still maintains his position that the landing of munitions would cause trouble and that the troops now under his command would be unable to cope with it. He has reported fully to the British and French governments and declared it would require 20,000 troops to insure safety of the munitions and also requesting advice.

Great Britain and France as far as reported from Paris tonight have not been able to decide what to do.

She was pointed out that while Sir Reginald Tower technically was breaking the letter of the Versailles treaty, he undoubtedly was preventing serious trouble and the tendency in official quarters here was to sustain him in his idea of acting first and asking advice afterward.

Will Not Advance Beyond Frontiers.
Washington, Aug. 23.—Complete assurance will be given the United States, it was stated today in Polish official circles, that Poland's armies will not advance beyond the natural frontiers of the reconstituted republic. An early communication from Warsaw to this effect was expected by these officials.

Representations setting forth the views of this government have been made thru the legation at Warsaw, the state department announced today, reiterating the stand taken by Secretary Colby in his recent note to the Italian ambassador. The position as outlined then was that the allied and associated powers should unite in a declaration favoring the preservation of the integrity of Russia, such a declaration to be accompanied "by the announcement that no transgression by Poland would be permitted."

The Polish reply, legation officials said, would set at rest any suspicions that Poland was contemplating an offensive war against Russia.

Assurances of this nature, it was added already had been given the soviet government envoys by the Polish peace delegates at Minsk.

ALL WANT TO KNOW

When Senator Harding publicly demanded of Governor Cox a specific statement concerning the nations, he made an inquiry to which every vote, in the United States, regardless of party, wants an unequivocal answer.

The Republican platform and the Republican candidate are committed against article 10, which, after a super-government shall have been created, would put in the power of the governments, without consent of congress, to control the armies and navies of the United States; in other words, to lead the United States into war. A Republican senator, with twenty-three Democratic senators joining, insisted on a reservation that the armed forces of the United States could not be employed except by consent of congress.

THE FIGHT IN TENNESSEE

The Tennessee constitutional league contends that the injunction secured against certification of the bill adopted by the legislature of that state granting the right of suffrage to women would prevent enfranchisement of the women of the nation for at least a year. Suffrage advocates believe, on the other hand, that the decision of the supreme court in the prohibition case covers the Tennessee situation in relation to the act of the legislature in ratifying the suffrage amendment.

rage amendment. The order granted by a state court temporarily restraining the governor of Tennessee from certifying the ratification to the secretary of state is founded upon the claim that under the state constitution the present legislature has no power to pass upon the amendment. "The constitution of that state declares that amendments of the national constitution shall not be ratified by Tennessee unless the members of the legislature that acts upon it shall have been elected subsequent to the submission of the amendment. That is to say, the people must have had an opportunity to consider the amendment when electing the legislature. This in itself is a reasonable provision, but the decision of the supreme court implies that the state has no power to impose conditions on the ratification of amendments. The national constitution prescribes the manner of ratification and the state, it would appear, cannot pass laws that will interfere with the process as it is there directed. If the right of the state to make terms is admitted the door would be opened to varying restrictions and conditions that would make the adoption of an amendment difficult or even impossible.

A NEW CONSECRATION IN MORALITY

There is a homely quality about some of the addresses which Senator Harding, as the Republican presidential nominee, is making to the various delegations that come before him in his front-porch campaign. Perhaps it is only natural, when a candidate speaks from his own doorstep, as to delegations of friends, that he should drop into a friendly strain, leaving off, for the time being, the technicalities of politics, and relaxing into words of homely wisdom. Finding before him the other day, for example, a delegation of Ohio newspaper men, men from his own state as well as from his own calling, it seemed the most natural thing in the world for him to get down to bedrock by turning the discussion to fundamental morality. He found himself pleading with his newspaper friends the need of a return to "the old standards of honesty," and the "lofty standards of fidelity."

In a way the Senator seems to have intended what he said to explain the reactionism that has been frequently charged against him in this campaign. Yet, so far as this speech was concerned, he obviously meant to champion the "old standards of honesty," the standards that have stood the tests of time, and that have been first, last, and always accepted as the marks of whatever is sincere, true, and just in the dealings of men and women with one another. The Senator claimed a high aspiration for the American people when he said that if he could call for but one distinction for them, he would like them to be known as an honest people. "We need the stamp of common everyday honesty, everywhere," he declared. In business, amid the ranks of labor, in the professions, he said, the need was as plain as the editorial rooms, and the rooms in newspaper offices where circulation figures are made up. He did not forget to mention politics and government as preeminently needs in which the old sort of honesty is needed. In fact, he classed them intimately with the daily lives of the people in response to that.

However far-fetched may seem his statement, he was surely correct when he declared that if governments and their diplomats in Europe had been honest, there would have been no war, and that if everybody had been really honest, peace might have followed the armistice within ninety days. For all that the Senator was doing was merely to recognize the wonderful power of simple goodness, consistently and faithfully followed. The half has never been told of that blessedness which might come upon all of the world's people if only all of them simply and sincerely desired good above everything else, and to attain it, kept themselves absolutely honest. It was something of this sort that the Senator was apprehending when he told the assembled editors that if the American people could only be genuinely honest with one another, they could put an end to industrial and social unrest, and that if they were only honest with God, they could become again a moral and religious people.

The deplorable thing is, of course, the need to use that little word again. Surely the American nation, in its early experience, was both moral and religious. That it has fallen away from its earlier standards may have been one of the natural effects of the tremendous developments and changes which it has, perforce, undergone. Yet, somehow or other, it must get back. It cannot fulfill the purpose which is inherent in its form of government if it be lastingly either irreligious or immoral. A "baptism in righteousness," a "new consecration in morality." These are what the Republican presidential nominee sees as important needs for America. And he sees truly.—Christian Science Monitor.

Rippling Rhymes By Walt Mason

The Loafers.
I ply my lyre the whole day long, and have since long ago, and ship out bales of deathless song at fifty cents a throw. And if I faltered in my zeal, the sheriff would appear, and promptly put his large red seal on all my words of gear. And when my harp gets smoking hot, its cooling system clogged, to some clam park or kindred spot I often times have jogged; and there the loafers all would sit on benches, day by day; they do not toil, they do not knit, they never strive for pay. I see the same old musty groups by

day, and after dark, barred out from all the city's coops, their home is in the park. They seem to think there's nothing wrong, they bubble and they laugh, until some peeler comes along and prods them with his staff. How doth the seedy little shirk still find existence nice, when men who buckle down and work can barely raise the price? How doth the boozey little bum contrive to stay on earth, when we must toil and make things hum, to gain our board and berth? It is a mystery, I wot, that needs solution, much; and when my air cooled harp keels hot, I muse, to beat the Dutch.

DEFENDS STATE TAX COMMISSION WORK

Gov. Lowden Makes Decisive Answer to Charges Made By Thompson—Explains About the Pullman Assessment.

Dixon, Ill., Aug. 23.—The ridiculousness of the charges against the State Tax Commission was pointed out by Governor Frank O. Lowden in an address delivered here this evening. He showed that a deliberate attempt had been made to create sentiment against the Tax Commission act in order to save the old Board of Equalization, and now that the board has been abolished an effort has been made to embarrass it and the administration by false accusations.

The Governor showed that the charge relative to the Pullman assessment was absolutely without foundation. The assessment of the Pullman Company, he explained, was deliberately doubled by the old Board of Equalization in an effort to provide propaganda to be used against the abolition of the board.

"For more than thirty years," he said, "the friends of good government in Illinois has been trying to get rid of the State Board of Equalization and substitute therefor a tax commission. It was notoriously inefficient or worse. The State Board of Equalization, as an agency of taxation, had been abolished in every state in the country, I believe, except one.

The Malone Incident.
"Governor Richard J. Oglesby began warfare against this useless body. That warfare has continued down to the time when I became Governor. Designing politicians, and corrupt influences were too powerful, and had saved it during all these years. I resolved to renew the fight upon it. The Honorable William H. Malone became chairman of the Board. This gentleman had been indicted in the courts of Cook county and pleaded guilty to the charge. He conceived the cunning plan to raise the assessment of the Pullman Company arbitrarily, hoping to frighten the Legislature and myself in the performance of our plain duty. This increase was made before the Legislature, by which action was expected, met, and it was made with the deliberate purpose of misleading the people as to the true state of affairs. The courts promptly enjoined collection of taxes upon this arbitrary increase, as Malone knew they would. The Supreme Court laid down precise and definite rule—'governing the assessment of capital stock of corporations. Malone knew that not one dollar of taxes would ever be realized upon this illegal and fraudulent assessment.'

"The Legislature in due time met. I recommended the abolition of the Board and a Tax Commission to take its place. In pursuance of the original conspiracy, veiled charges and innuendoes were made, and I promptly demanded an investigation. The veiled charges and innuendoes all disappeared when the gentlemen, who had made them, including Malone himself, were put upon oath before the Committee of the General Assembly. The bill was then brought to a vote in the General Assembly and passed the Senate by a vote of 34 to 7, and in the House of Representatives by a vote of 109 to 20.

A Long Battle.

"This great reform was accomplished after a battle of more than thirty years. It received the commendation of the good citizens of the State, irrespective of party, and the approval of the students of good government everywhere. It then became my duty to appoint a commission to administer this law. I realized the important duties it would have to discharge, and as been my custom ever since I became Governor, I searched the State over for the men I believed best qualified for this important service.

"The result was the appointment of Honorable Frank F. Noleman, one of the ablest and most respected lawyers and businessmen of Southern Illinois; Colonel Joseph B. Sanborn, an experienced businessman and perhaps the most distinguished soldier which Illinois contributed to the Great War and the Honorable Charles C. Craig, late a member of the Supreme Court of this State. With these gentlemen were appointed, I said to them, 'I should have but one request to make of them, and that was, that regarding themselves in the nature of judges, they do justice impartially to all. This, I believe they have done to the fullest extent. They set about their duties unconscious of their importance and have discharged them with zeal, and without fear or favor. They have rendered inestimable services to the people of this State, and some day these services will be recognized.

The Chicago Assault.

"If the assault now made by the Lundin-Thompson Tammany were directed against me alone, I would scorn to answer it. If I must answer attacks upon my integrity, coming from such a source, I have, indeed, lived in Illinois in vain. But they go farther—they involve the integrity of three as high-minded, as patriotic, as devoted public servants, as this State has ever had. No one of these men solicited the appointment; in fact, I had difficulty in persuading them to serve. I had even intimated to one of them that I wanted the Pullman Company, or any other corporation favored, he would have indignantly resigned. There are to three men in the State who enjoy a better reputation for character than they.

"At the beginning of my administration I had offered Mr. Noleman the chairmanship of the

Public Utilities Commission, then regarded the most important place within my gift, but could not induce him to accept; and Judge Craig had just retired from the Supreme Court, with the respect of the Bar and of the people of the State. Colonel Sanborn has just returned from Europe, covered with decorations for bravery upon the battle-field. To charge these men now with being parties to corrupt conspiracy is an outrage upon public decency and private character. How are you going to get men of this fine, high type of manhood to serve the public if they are to be made the targets of slander and vituperation by demagogues in high places!

"The facts have stated are of record, and I believe were known to Lundin and Thompson. I assert that no other assessments could have been levied by this distinguished body upon any corporation in the State than were levied by them without violating their oath of office and overriding the law of the land.

"Of course, when this conspiracy was young I recognized its diabolic cleverness and could have abandoned my effort to abolish the State Board of Equalization. I could have saved myself an infinite amount of trouble. It's always easier to submit to black mail than to resist. I resolved, however, to be true to my sense of duty, whatever it might cost me.

"And even if all that is charged is true, what would I have gained? Nothing myself. Neither, in fact, would my wife and children have profited a cent, for the excess assessment by the old Board of Equalization had already been declared invalid. But if it had been declared valid, it would have cost my wife and children something like three thousand dollars!

Paid Mansion Bill.

"I am going to take you a little into my confidence. When we went to Springfield the Executive Mansion was sadly in need of repairs. The heating apparatus, the plumbing, the electric light wiring were all antiquated and dangerous. The foundations of the building itself in places needed strengthening. This was well known by everyone in Springfield. The appropriation committee offered to make an appropriation large enough to thoroughly rehabilitate the Mansion. It would require a much larger amount than I felt like approving, because I was trying to keep expenditures down generally. The appropriation thus made was altogether inadequate for the work which should be done. Mrs. Lowden asked me if there was any objection to her using her own money to supply the deficiency. I told her there was none, if her patriotism was equal to it, but that I did not think my own was. The upshot of it was that she expended twenty five thousand dollars of her own money in addition to the appropriation in permanent reconstruction of the mansion.

ALL WANT TO KNOW
 When Senator Harding publicly demanded of Governor Cox a specific statement concerning the nations, he made an inquiry to which every voter in the United States, regardless of party, wants an unequivocal answer.

The Republican platform and the Republican candidate are committed against article 10, which, after a super-government shall have been created, would put it in the power of the governments, without consent of congress, to control the armies and navies of the United States; in other words, to lead the United States into war. A Republican senator, with twenty-three Democratic senators joining, insisted on a reservation that the armed forces of the United States could not be employed except by consent of congress.

THE FIGHT IN TENNESSEE
 The Tennessee constitutional league contends that the injunction secured against certification of the bill adopted by the legislature of that state granting the right of suffrage to women would prevent enfranchisement of the women of the nation for at least a year. Suffrage advocates believe, on the other hand, that the decision of the supreme court in the prohibition case covers the Tennessee situation in relation to the act of the legislature in ratifying the suffrage amendment.

The order granted by a state court temporarily restraining the governor of Tennessee from certifying the ratification to the secretary of state is founded upon the claim that under the state constitution the present legislature has no power to pass upon the amendment. "The constitution of that state declares that amendments of the national constitution shall not be ratified by Tennessee unless the members of the legislature that acts upon it shall have been elected subsequent to the submission of the amendment. That is to say, the people must have had an opportunity to consider the amendment when electing the legislature. This in itself is a reasonable provision, but the decision of the supreme court implies that the state has no power to impose conditions on the ratification of amendments. The national constitution prescribes the manner of ratification and the state, it would appear, cannot pass laws that will interfere with the process as it is there directed. If the right of the state to make terms is admitted, the door would be opened to varying restrictions and conditions that would make the adoption of an amendment difficult or even impossible.

A NEW CONSECRATION IN MORALITY

There is a homely quality about some of the addresses which Senator Harding, as the Republican presidential nominee, is making to the various delegations that come before him in his front-porch campaign. Perhaps it is only natural, when a candidate speaks from his own doorstep, as to delegations of friends, that he should drop into a friendly strain, leaving off, for the time being, the technicalities of politics, and relaxing into words of homely wisdom. Finding before him the other day, for example, a delegation of Ohio newspaper men, men from his own state as well as from his own calling, it seemed the most natural thing in the world for him to get down to bedrock by turning the discussion to fundamental morality. He found himself pleading with his newspaper friends the need of a return to "the old standards of honesty," and the "lofty standards of fidelity."

In a way the Senator seems to have intended what he said to explain the reactionism that has been frequently charged against him in this campaign. Yet, so far as this speech was concerned, he obviously meant to champion, as the "old standards of honesty," the standards that have stood the tests of time, and that have been first, last, and always accepted as the marks of whatever is sincere, true, and just in the dealings of men and women with one another. The Senator claimed a high aspiration for the American people when he said that, if he could call for but one distinction for them, he would like them to be known as an honest people. "We need the honesty," he declared, "in business, amid the ranks of labor, in the professions, he saw the need, as well as in places like editorial rooms, and the rooms in newspaper offices where circulation figures are made up. He did not forget to mention politics and government as preeminently fields in which the old sort of honesty is needed. He has classed them intimately with the daily lives of the people in respect to that need.

However far-fetched may seem his statement, he was surely correct when he declared that if governments and their diplomats in Europe had been honest, there would have been no war, and that if everybody had been really honest, peace might have followed the armistice within ninety days. For all that the Senator was doing was merely to recognize the wonderful power of simple goodness, consistently and faithfully followed. The half has never been told of that blessedness which might come upon all of the world's people if only all of them simply and honestly desired good above everything else, and, to attain it, kept themselves absolutely honest. It was something of this sort that the Senator was apprehending when he told the assembled editors that if the American people could only be genuinely honest with one another, they could put an end to industrial and social unrest, and that they were only honest with God, they could become again a moral and religious people.

The deplorable thing is, of course, the need to use that little word "again." Surely the American nation, in its early experience, was both moral and religious. That it has fallen away from its earlier standards may have been one of the natural effects of the tremendous developments and changes which it has, perforce, undergone. Yet, somehow or other, it must get back. It cannot fulfill the purpose which is inherent in its form of government if it be fastidiously either irreligious or immoral. A "baptism in righteousness," a "new consecration in morality." These are what the Republican presidential nominee sees as important needs for America. And he sees truly.—Christian Science Monitor.

Rippling Rhymes By Walt Mason

The Loafers.
 I ply my lyre the whole day long, and have since long ago, and ship out bales of deathless song at fifty cents a throw. And if I faltered in my zeal, the sheriff would appear, and promptly place his large red seal on all my worldly gear. And when my harp gets smoking hot, its cooling system clogged, to some clank park or kindred spot I often times have jogged; and there the loafers always sit on benches, day by day; they do not toil, they do not knit, they never strive for pay. I see the same old musty groups by

day, and after dark, barred out from all the city's coops, their home is in the park. They seem to think there's nothing wrong, they bubble and they laugh, until some peeler comes along and prods them with his staff. How doth the seedy little shirk still find existence nice, when men who buckle down and work can barely raise the price? How doth the boozy little bum contrive to stay on earth, when we must toil and make things hum, to gain our board and berth? It is a mystery, I wot, that needs solution, much; and when my air cooled harp gets hot, I muse, to beat the Dutch.

ATTENDED FUNERAL OF RELATIVE IN QUINCY

Mr. and Mrs. F. R. Wallbaum and Mr. and Mrs. Charles Hagen, Sr. all of Alexander, have returned from Quincy where they went to attend the funeral of Mrs. Charles Hagen, Jr. Mrs. Hagen met death as the result of the accidental discharge of a shotgun Thursday morning, Aug. 19, at her home in Quincy. The deceased was alone in the room when the accident occurred and therefore no particulars are available, but it is supposed that she was moving the gun from one spot to another when it was accidentally discharged.

The deceased was born in Merriam, Ill., in September, 1883, the daughter of Mr. and Mrs. Joseph Worrell of this county. Nineteen years ago she was united in marriage to Charles Hagen, who together with three children, survives.

DEFENDS STATE TAX COMMISSION WORK

Gov. Lowden Makes Decisive Answer to Charges Made by Thompson—Explains About the Pullman Assessment.

Dixon, Ill., Aug. 23.—The ridiculousness of the charges against the State Tax Commission was pointed out by Governor Frank O. Lowden in an address delivered here this evening. He showed that a deliberate attempt had been made to create sentiment against the Tax Commission act in order to save the old Board of Equalization, and now that the board has been abolished an effort has been made to embarrass it and the administration by false accusations.

The Governor showed that the charge relative to the Pullman assessment was absolutely without foundation. The assessment of the Pullman Company, he explained, was deliberately doubled by the old Board of Equalization in an effort to provide propaganda to be used against the abolition of the board.

"For more than thirty years," he said, "the friends of good government in Illinois has been trying to get rid of the State Board of Equalization, and substitute therefor a tax commission. It was notoriously inefficient or worse. The State Board of Equalization, as an agency of taxation, had been abolished in every state in the country, I believe, except one.

The Malone Incident.
 Governor Richard J. Oglesby began warfare against this useless body. That warfare has continued down to the day when I became Governor. Designing politicians, and corporation influences were too powerful, and had saved it during all these years. I resolved to renew the fight upon it. The Honorable William H. Malone became chairman of the Board. This gentleman had been indicted in the courts of Cook county and pleaded guilty to the charge. He conceived the cunning plan to raise the assessment of the Pullman Company arbitrarily, hoping to frighten the Legislature and myself in the performance of our plain duty. This increase was made before the Legislature, by which action was expected, met, and it was made with the deliberate purpose of misleading the people as to the true state of affairs. The courts promptly enjoined collection of taxes upon this arbitrary increase, as Malone knew they would. The Supreme Court laid down precise and definite rules governing the assessment of capital stock of corporations. Malone knew that not one dollar of taxes would ever be realized upon this illegal and fraudulent assessment.

"The Legislature in due time met. I recommended the abolition of the Board and a Tax Commission to take its place. In pursuance of the original conspiracy, veiled charges and innuendoes were made, and I promptly demanded an investigation. The veiled charges and innuendoes all disappeared when the gentlemen, who had made them, including Malone himself, were put upon oath before the Committee of the General Assembly. The bill was then brought to a vote in the General Assembly and passed the Senate by a vote of 34 to 7, and in the House of Representatives by a vote of 109 to 20.

A Long Battle.
 "This great reform was accomplished after a battle of more than thirty years. It received the commendation of the good citizens of the State, irrespective of party, and the approval of the students of good government everywhere. It then became my duty to appoint a commission to administer this law. I realized the important duties it would have to discharge, and as been my custom ever since I became Governor, I searched the State over for the men I believed best qualified for this important service.

"The result was the appointment of Honorable Frank F. Noleman, one of the ablest and most respected lawyers and business men of Southern Illinois; Colonel Joseph B. Sanborn, an experienced businessman and perhaps the most distinguished soldier which Illinois contributed to the Great War and the Honorable Charles C. Craig, late a member of the Supreme Court of this State. When these gentlemen were appointed, I said to them that I should have but one request to make of them, and that was, that regarding themselves in the nature of judges, they do justice impartially to all. This, I believe they have done to the fullest extent. They set about their duties conscious of their importance and have discharged them with zeal, and without fear or favor. They have rendered inestimable services to the people of this State, and some day these services will be recognized.

The Chicago Assault.
 "If the assault now made by the Lundin-Thompson Tammany were directed against me alone, I would scorn to answer it. If I must answer attacks upon my integrity, coming from such a source, I have, indeed, lived in Illinois in vain. But they go farther—they involve the integrity of three as high-minded, as patriotic, as devoted public servants, as this State has ever had. No one of these men solicited the appointment; in fact, I had difficulty in persuading them to serve. I had even intimated to one of them that I wanted the Pullman Company, or any other corporation favored, he would have indignantly resigned. There are to three men in the State who enjoy a better reputation for character than they.

"At the beginning of my administration I had offered Mr. Noleman the chairmanship of the

Public Utilities Commission, then regarded the most important place within my gift, but could not induce him to accept; and Judge Craig had just retired from the Supreme Court, with the respect of the Bar and of the people of the State. Colonel Sanborn has just returned from Europe, covered with decorations for bravery upon the battle-field. To charge these men now with being parties to corrupt conspiracy is an outrage upon public decency and private character. How are you going to get men of this fine, high type of manhood to serve the public if they are to be made the targets of slander and vituperation by demagogues in high places?

"The facts have stated are of record, and I believe were known to Lundin and Thompson. I assert that no other assessments could have been levied by this distinguished body upon any corporation in the State than were levied by them without violating their oath of office and overriding the law of the land.

"Of course, when this conspiracy was young I recognized its diabolic cleverness and could have abandoned my effort to abolish the State Board of Equalization. I could have saved myself an infinite amount of trouble. It's always easier to submit to blackmail than to resist it. I resolved, however, to be true to my sense of duty, whatever it might cost me.

"And even if all that is charged is true, what would I have gained? Nothing myself. Neither, in fact, would my wife and children have profited a cent, for the excess assessment by the old Board of Equalization had already been declared invalid. But if it had been declared valid, it would have cost my wife and children something like three thousand dollars!

Paid Mansion Bill.
 "I am going to take you a little into my confidence. When we went to Springfield the Executive Mansion was sadly in need of repairs. The heating apparatus, the plumbing, the electric light wiring were all antiquated and dangerous. The foundations of the building itself in places needed strengthening. This was well known by everyone in Springfield. The appropriation committee offered to make an appropriation large enough to thoroughly rehabilitate the Mansion. It would require a much larger amount than I felt like approving, because I was trying to keep expenditures down generally. The appropriation thus made was altogether inadequate for the work which should be done. Mrs. Lowden asked me if there was any objection to her using her own money to supply the deficiency. I told her there was none, if her patriotism was equal to it, but that I did not think my own was. The upshot of it was that she expended twenty five thousand dollars of her own money in addition to the appropriation in permanent reconstruction of the mansion.

"If the charges of the Lundin-Thompson Tammany are true, I have violated my oath of office to save my wife and children three thousand dollars altho my wife had voluntarily given to the State the sum of twenty-five thousand dollars out of her own purse."

SIMPLE HOME REMEDY ADVISED FOR HAY FEVER

Anyone Can Make a Pint for Trifling Sum and Used in Time May Prevent Annual Attack.

"No matter how severe your yearly attack be.

"No matter how distressing or humiliating.

"The intensity can be reduced to a harmless mildness," says a Kentucky druggist, who believes from what he has seen that this simple home made remedy is a most important discovery.

He has seen the most severe and apparently unquenchable cases of Hay and Rose fever reduced to what might be called a mild cold in twenty-four hours.

In many cases where the patient started treatment a week or ten days before the expected attack, the unwelcome yearly visitor failed to appear with anything like its usual intensity.

People who want to try this new treatment can make a pint in a few minutes. Four three-quarters of an ounce of Mentholized Arcline in a pint bottle, then fill the bottle with water that has been boiled. Gargle daily as directed and sniff or spray the nostrils twice daily.

That's all there is to the treatment which so many sufferers have found to be a true friend.

Mentholized Arcline in three-quarter-ounce vials is dispensed by all the better pharmacies.

Mentholized Arcline is new in this market. It is possible that your druggist has not supplied himself, but he can get it for you from his jobber, who has a large supply.

ALMOST A SHADOW, AFRAID TO EAT

"My son-in-law was so bad from stomach trouble that he was reduced to almost a shadow and was afraid to eat anything, as all food caused bloating of gas, which pressed against his heart, worrying him very much. Our druggist persuaded him to try Mayr's Wonderful Remedy, and in two months he looked fine, can eat anything and works hard every day."

It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and always the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For sale by all druggists.—Adv.

NEIGHBOR GAVE PROPER ADVICE TO SICK FRIEND

Urged Use of Trutona Which Soon Cleared System of Long Standing Ailments.

Springfield, Ill., Aug. 23.—"Before I began using Trutona I was thoroughly disheartened over trying to get available relief from my troubles," says Gus Pogonick, who lives in Springfield at 724 North Second street.

"I had suffered from Static Rheumatism for the past twenty years. I was all bent over and couldn't straighten up. My bowels wouldn't move without the aid of laxatives, and my appetite was so poor that I could scarcely eat anything. I was very nervous all the time, and I couldn't sleep well at night. I suffered greatly from pains in my head and the back of my neck also."

"I honestly thought I was beyond all medical aid, until a neighbor advised me to try Trutona, and to my surprise it has done for me just what the other medicines failed to do all these years. I don't suffer from the rheumatism as I did, my appetite is good, and I can eat and digest most anything now. My bowels are as regular as a clock, and I sleep just fine all night long. I seem to be improving every day, now, and the pains in my head and the back of my neck have left me. Trutona is making me feel younger and better than I have for years."

Trutona is really a medicine of unusual merit. It is unsurpassed as a reconstructive agency, system purifier and body invigorant. It has been declared peerless as a treatment for stomach, liver and bowel troubles.

Trutona is sold in Jacksonville by Coover & Shreve, and by Wyle Drug Co., Franklin, Ill., and Wyle Drug Co., Waverly, Ill.

Barbasol Softens the Beard and Heals As It Shaves.

Chemistry has another feather in its cap.

Now it makes possible the "smartless" shave.

The old scraping and pulling method of our grandfathers is replaced by an easy, pleasant method that even does away with the unsanitary shaving brush and the messy mug. Men who have tried this modern shaving preparation proclaim it the greatest discovery since shaving was invented. A remarkable claimant that heals the face and keeps it in the best condition at all times. It easily softens the toughest beard, yet will not harm the most delicate skin.

All druggists recommend Barbasol and most of them sell it.

If your druggist hasn't Barbasol it will be mailed to you on receipt of price, 35 cents, and druggist's name. Made only by the Napco Corporation, Indianapolis, Indiana.

ALMOST A SHADOW,
AFRAID TO EAT

"My son-in-law was so bad from stomach trouble that he was reduced to almost a shadow and was afraid to eat anything, as all food caused bloating of gas which pressed against his heart, worrying him very much. Our druggist persuaded him to try Mayr's Wonderful Remedy, and in two months he looked fine, can eat anything and works hard every day." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For sale by all druggists.—Adv.

NEIGHBOR GAVE
PROPER ADVICE

Urged Use of Trutona Which Soon Cleared System of Long Standing Ailments.

Springfield, Ill., Aug. 23.—"Before I began using Trutona I was thoroughly disheartened over trying to get available relief from my troubles," says Gus Pogensick, who lives in Springfield at 724 North Second street.

"I had suffered from Sciatic Rheumatism for the past twenty years. I was all bent over and couldn't straighten up. My bowels wouldn't move without the aid of laxatives, and my appetite was so poor that I could scarcely eat anything. I was very nervous all the time, and I couldn't sleep well at night. I suffered greatly from pains in my head and the back of my neck also."

"I honestly thought I was beyond all medical aid, until a neighbor advised me to try Trutona, and to my surprise it has done for me just what the other medicines failed to do all these years. I don't suffer from the rheumatism as I did, my appetite is good, and I can eat and digest most anything now. My bowels are as regular as a clock, and I sleep just fine all night long. I seem to be improving every day, now, and the pains in my head and the back of my neck have left me. Trutona is making me feel younger and better than I have for years."

Trutona is really a medicine of unusual merit. It is unsurpassed as a reconstructive agency, system purifier and body invigorant. It has been declared peerless as a treatment for stomach, liver and bowel troubles.

Trutona is sold in Jacksonville by Coover & Shreve, and by Wyle Drug Co., Franklin, Ill., and Wyle Drug Co., Waverly, Ill.

CHICAGO REFUSES TELEPHONE CO. CHECK

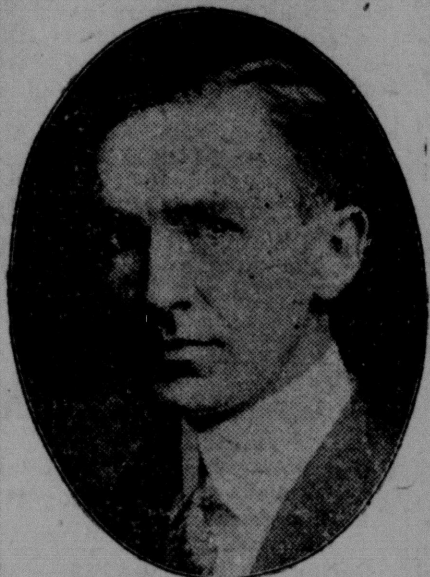

CHICAGO, Aug. 23.—Chicago, altho more than a million dollars in debt, today refused to accept a check from the Chicago Telephone Co., for \$438,941.18. The check represents three per cent of the company's earnings for the first six months of 1920, due the city under the company's franchise.

VOTE FOR HUGH GREEN

—FOR—
States Attorney
September Fifteen

Morgan county voters will make a good move in voting for Hugh Green, for the Republican nomination for State's Attorney, at the primary election on Sept. 15, 1920. He is well qualified by education, experience and temperament to handle the office in a capable and satisfactory manner.

HUGH GREEN.

No young man deserves more credit for making his way in the world than Hugh Green. His father died when the boy was three years of age and young Green was compelled to start out early for himself. He began as ploughboy at 25c per day. By perseverance and hard work he managed to get a high school education, and was graduated at the head of his class. At Illinois College he supported himself by scrubbing floors, washing windows, mowing lawns, stoking furnaces, clerking in stores, and in fact doing everything he could get to do during the school year and by doing farm work and traveling with a threshing outfit during vacation. In four years he was graduated with honors and then went to Chicago where he again earned his own way and again was graduated with honors from Northwestern University Law School. Returning to Jacksonville 8 years ago, he entered the practice of law, and was just established when the World War came. He was examined in the draft but found too much underweight to be accepted. He then assisted the Local (Exemption) Board and his work was of a highly satisfactory character. Although he sacrificed his entire business, and was cut for 18 months, he received nothing for his services except the pay of a private soldier, which was \$1 per day and board. By change of physical requirements in the army he became eligible to be and was inducted into military service on Sept. 6, 1918, sent to Camp Grant, Illinois, and from there was assigned to the Board. He was discharged at Camp Grant on Feb. 24, 1919.

In June 1919 he was married to Miss Clara Belle Hopper. They have one son. Mrs. Green is a daughter of Mr. Charles Hopper, of Honner & Son.

ILLINOIS CROPS REPORTED IMPROVED

Drouth Was Broken in Many Parts Altho Much of the State Still Needs Moisture—Chinch Bugs Have Been Checked.

Springfield, Ill., Aug. 23.—Although the drouth was broken in many areas in Illinois last week, according to the crop bulletin issued today by the Bureau of Crop Estimates. Corn, it says, shows improvement, though its condition is very spotted and many fields are beyond relief. Chinch bugs have been checked by the eral in some localities but the situation in the southeast is still serious. Threshing of winter wheat is about finished, but rains have checked the threshing of spring wheat and oats. Yields of spring wheat are not very heavy as a rule and the quality is not usually of the best. In a number of northern counties much damage has been done by rust. Oats appear more satisfactory, than expected. Heads have generally filled well and the quality is running good to excellent. Meadows and pastures have been helped in many localities by the rain, though in a large portion of the state the pastures are still brown and dry and are furnishing no food for animals.

The condition of apples has not made much change in the week, and a good crop of not over fair quality will be harvested. Peaches have made a good crop and are now appearing on the market. In quality they are fair to excellent. Home grown watermelons of excellent quality are now obtainable.

FORMER SECRET AGENT ORDERED DEPORTED

JUAREZ, Mexico, Aug. 23.—Dr. Paul B. Altendorf, former secret agent in Mexico for the United States ordered deported from Mexico as a pernicious foreigner, remained tonight on Mexican soil because officials of his adopted country would not permit him entry until he could show proof of American citizenship.

Altendorf arrived here this morning from Mexico City under guard of two Mexican army officers. He said his latest trip into Mexico was under the auspices of the American Insurance companies and that he had located a German in Mexico who is responsible for the Kingston and Black Tom explosion on the Atlantic coast in 1917.

Felix Gorman, according to Altendorf went to Mexico soon after the explosions. Altendorf was arrested in Mexico City, August 9. General P. Elias Calles, minister of war and marine in Mexico City, ordered him deported on the charge that he had testified derogatory to Mexico before a committee of the United States senate investigating affairs in Mexico, according to Altendorf, who alleges he was held incommunicado in a small cell of a Mexican prison until put on a train five days ago.

The American consul telegraphed the state department for instructions. Altendorf claims to have declared his intention to become a citizen of the United States, and that he was born in Poland.

FORMER SECRET AGENT ORDERED DEPORTED
JUAAREZ, Mexico, Aug. 23.—Dr. Paul B. Altendorf, former secret agent in Mexico for the United States ordered deported from Mexico as a pernicious foreigner, remained tonight on Mexican soil because officials of his adopted country would not permit him entry until he could show proof of American citizenship.

Altendorf arrived here this morning from Mexico City under guard of two Mexican army officers. He said his latest trip into Mexico was under the auspices of the American Insurance companies and that he had located a German in Mexico who is responsible for the Kingston and Black Tom explosion on the Atlantic coast in 1917.

This German, according to Altendorf went to Mexico soon after the explosions. Altendorf was arrested in Mexico City, August 9. General P. Elias Calles, minister of war and marine in Mexico City, ordered him deported on the charge that he had testified derogatory to Mexico, before a committee of the United States senate investigating affairs in Mexico, according to Altendorf, who alleges he was held incommunicado in a small cell of a Mexican prison until put on a train five days ago.

The American consular telegraphed the state department for instructions.

Altendorf claims to have declared his intention to become a citizen of the United States, and that he was born in Poland.

CHAUTAUQUA DRAWS GREAT AUDIENCES

INTEREST UNABATED AS THE PROGRAMS PROCEED.

Musical Features interspersed with addresses Sunday and Monday—Dr. Culbertson presented Present Day Theme—Announcement of 1921 Assembly Made.

The attendance at the chautauqua both Sunday and Monday was excellent. It can hardly be called chautauqua weather but the fact is not lessening the interest. Sunday morning the Sunday school hour was in charge of E. R. Hembrough and at 11 o'clock Rev. T. H. Tull preached the sermon.

In the afternoon the chautauqua preachers' quartet gave a concert program and then came an address on "The Makers of Tomorrow" by Dr. Henry C. Culbertson, president of Ripon College. At night the quartet was heard again and Dr. Culbertson made his second address.

Monday morning Rev. W. E. Collins began his work with the boys and girls, more than eighty taking part in the interesting program. At 10 o'clock Dr. A. P. Cobb delivered his lecture "America, Its Heroic Period" to an audience of several hundred.

In the afternoon the first attraction was the Garner Jubilee singers and at 3 o'clock the first of the Saddleback lectures was given by the Saddlebacks, who appeared again in the evening.

The Jubilee singers also appeared again in the program, preceding the financial statement of the chautauqua and announcement for 1921 was made by Frank J. Hehl. The statement is presented in full elsewhere in this paper. The day's program concluded with a motion picture.

The chautauqua preachers' quartet was exceedingly well received. Four Methodist ministers composed this quartet and while there are a humorous selections in their program, most of the numbers were of a sacred or semi-sacred character.

Dr. Culbertson an individualist. Dr. Culbertson is a Congregational minister and president of Ripon College in Wisconsin. He is a speaker of some renown and evidently a keen student of the times.

He talked particularly of the present unrest which appears in all classes of society, and particularly opposed the remedy of socialism as sometimes proposed.

He had previously talked about Bolshevism and its outrages, giving a summary of conditions in Russia. Dr. Culbertson is a strong individualist and does not believe that anything is to be gained in the program of surrendering the rights of the individual to groups or to society in general.

From the way the boys and girls work started out Monday that hour is going to be one of the most interesting each day. Monday Mr. Collins was assisted by Franklin Scott. Games have a part in each day's program and some competitive contests will be staged before the week is over.

The address by Dr. Cobb on America was supplementary to his previous one and related particularly to the war of the rebellion and the period of reconstruction which followed.

The Jubilee Singers. The Garner Jubilee Singers who presented programs both Monday afternoon and evening are musicians of real ability. Their voices have all the native negro mellowness and also the advantage of training. The selections given were of a kind that are always enthusiastically received by chautauqua audiences.

The Saddlebacks are not new to Morgan county people and have appeared here several times before in their health lectures. They talk of the basic things in relation to health in a scientific way but so plainly that anyone can understand. Those who hear them come into a keener appreciation of the relationship of health to all else in life. They are made to realize too that certain "rules of health" are inexorable and to violate them sooner or later brings the unfailing results.

Monday Morning. Monday morning was rather cool and cloudy but the weather did little to dampen the spirits of those present. The campers were generally in fine spirits and all was lovely. Rev. W. E. Collins was on hand and soon had a large company of girls whom he gave some very useful and pleasing drills. He was cordially welcomed by all young people of whom there is a goodly number present. His work was very satisfactory.

Franklin Scott had charge of the boys and treated them also to some healthy and invigorating exercises which brought the color to their cheeks and appetites to their stomachs in a fine lecture. The lecture by Platform Manager Cobb on the heroic period of America was a fine effort. He told in a graphic manner of the vicissitudes of our forefathers, what they endured and what they did in laying the foundations for our present greatness. He told a thrilling story of the heroism of a woman. Her husband had a general store and a big Indian supply but there were reasons to suppose evil was abroad. The man, Mr. Green, was waiting on the customer while Mrs. Green watched from a stairway near by. All went well till Mr. Green stooped over to draw some molasses from a barrel and while he was in that position the redskin began to draw his tomahawk to kill him, when Mrs. Green seized an ax and cleft the intruder's skull and then when all was over and her husband safe she fainted.

The absence of Mrs. Houston was unfortunate but she is faithfully promised for today.

His assistants are Susie Lynch, Mary Brinkman and Anna Wilson. All is done up in fine order.

The number of visitors from a distance is notable.

A little flurry was caused yesterday by a card hung conspicuously at the door of the cafeteria.

"Supper at 5.15." "Good gracious!" exclaimed a man, "five dollars and fifteen cents for a meal? Well, that is going some."

It was explained to him that it meant a quarter past five o'clock and he went in happy.

Have You Seen the F. B. Battery Cover? The F. B. Battery Cover is an absolute essential for the protection of the battery. Without it the top of the battery quickly becomes covered with mud and dirt, which becomes acid soaked, not only causing a leakage of the current and soon runs down the battery, but also causes undue corrosion, disintegration of the terminals and the battery box proper which in a short time absolutely ruins the complete battery.

CHAUTAUQUA DRAWS GREAT AUDIENCES

INTEREST UNABATED AS THE PROGRAMS PROCEED.

Musical features interspersed with addresses Sunday and Monday—Dr. Culbertson presented Present Day Theme—Announcement of 1921 Assembly Made.

The attendance at the chautauqua both Sunday and Monday was excellent. It can hardly be called chautauqua weather but the fact is not lessening the interest. Sunday morning the Sunday school hour was in charge of E. R. Hembrough and at 11 o'clock Rev. T. H. Tull preached the sermon.

In the afternoon the chautauqua quartet gave a concert program and then came an address on "The Makers of Tomorrow" by Dr. Henry C. Culbertson, president of Ripon College. At night the quartet was heard again and Dr. Culbertson made his second address.

Monday morning Rev. W. E. Collins began his work with the boys and girls, more than eighty taking part in the interesting program. At 10 o'clock Dr. A. P. Cobb delivered his lecture "America, Its Heroic Period" to an audience of several hundred.

In the afternoon the first attraction was the Garner Jubilee singers and at 3 o'clock the first of the Saddle lectures was given by the Saddlers, who appeared again in the evening.

The Jubilee singers also appeared again in the program, preceding the financial statement of the chautauqua and announcement for 1921 was made by Frank J. Hehl. The statement is presented in full elsewhere in this paper. The day's program concluded with a motion picture.

The chautauqua preachers' quartet was exceedingly well received. Four Methodist ministers compose this quartet and while there are a few humorous selections in their program, most of the numbers were of a sacred or semi-sacred character.

Dr. Culbertson an Individualist. Dr. Culbertson is a Congregational minister and president of Ripon College in Wisconsin. He is a speaker of some renown and evidently a keen student of the present. He talked particularly of the present unrest which appears in all classes of society, and particularly opposed the remedy of socialism as sometimes proposed. He had previously talked about Bolshevism and its outrages, giving a summary of conditions in Russia. Dr. Culbertson is a strong individualist and does not believe that anything is to be gained in the program of surrendering the rights of the individual to groups or to society in general.

From the way the boys and girls work started out Monday that hour is going to be one of the most interesting each day. Monday Mr. Collins was assisted by Franklin Scott. Games have a part in each day's program and some competitive contests will be staged before the week is over. The address by Dr. Cobb on America was supplementary to his previous one and related particularly to the war of the Rebellion and the period of reconstruction which followed.

The Jubilee Singers. The Garner Jubilee Singers who presented programs both Monday afternoon and evening are musicians of real ability. The voices have all the native negro mellowness and also the advantage of training. The selections given were of a kind that are always enthusiastically received by chautauqua audiences.

The Saddlers are not new to Morgan county people and have appeared here several times before in their health lectures. They talk of the basic things in relation to health in a scientific way but so plainly that anyone can understand. Those who hear them come into a keener appreciation of the relationship of health to all else in life. They are made to realize too that certain rules of health are inexorable and to violate them sooner or later brings the unfailing results.

Monday Morning. Monday morning was rather cool and cloudy but the weather did little to dampen the spirits of those present. The campers were generally in fine spirits and all was lovely. Rev. W. E. Collins was on hand and soon had a large company of girls whom he gave some very useful and pleasing drills. He was cordially welcomed by all young people of whom there is a goodly number present. His work was very satisfactory.

Franklin Scott had charge of the boys and treated them also to some healthy and invigorating exercises which brought the color to their cheeks and appetites to their stomachs in a fine lecture. The lecture by Platform Manager Cobb on the heroic period of America was a fine effort. He told in a graphic manner of the vicissitudes of our forefathers, what they endured and what they did in laying the foundations for our present greatness. He told a thrilling story of the heroism of a woman. Her husband had a general store and a big Indian came ostensibly to get some supplies but there were reasons to suppose evil was abroad. The man, Mr. Green, was waiting on the customer while Mrs. Green watched from a stairway near by. All went well till Mr. Green stooped over to draw some molasses from a barrel and while he was in that position the redskin began to draw his tomahawk to kill him when Mrs. Green seized an ax and cleft the Indian's skull and then when all was over and her husband safe she fainted. The absence of Mrs. Houston

was unfortunate but she is faithfully promised for today.

Recent arrivals at the grounds are Mr. and Mrs. Charles Mortimer of Virden.

Mrs. George Edwan and son will not be here all the time but will leave shortly for their home in Lima, Ohio. Mrs. Edman speaks highly of our chautauqua.

Mrs. Mike Smith, Mrs. Reese, Mrs. Mark Hutches and daughter Ruth visited at the Some Inn Sunday.

Mrs. Drury Harrison and sister, Mrs. Thompson, took supper Sunday at the R K D A tent.

The cooking at the Pastoral Helpers' kitchen is strictly first-class for every one knows what Henry Davi can do and yesterday the ladies were especially loud in their praise of some cakes he had turned out. His assistants are Susie Lynch, Mary Brinkman and Anna Wilson. All is done up in fine order.

The number of visitors from a distance is notable.

A little flurry was caused yesterday by a card hung conspicuously at the door of the cafeteria. "Supper at 5.15." "Good gracious!" exclaimed a man, "five dollars and fifteen cents for a meal? Well, that is going some."

It was explained to him that it meant a quarter past five o'clock and he went in happy.

Rev. Roy Corrington who has been conducting revival meetings at Chapin is a guest on the grounds.

Miss Vivian Hughes is a guest at the Arthur Green tent.

Howard Day and wife of Virden are guests with Arthur Ellis and wife.

AT THE CHAUTAUQUA. Sunday's program at the chautauqua was an ideal Sabbath program. The entire program was given by preachers. Our own Rev. Mr. Tull delivered the sermon in the morning. Mr. Cobb, the platform manager, is a minister in the Christian church, Dr. Culbertson is a Congregational preacher and president of a Congregational college and the Preachers' Quartet is made up of four Methodist ministers who actively serve prominent churches.

Much complaint has been made because there is no Bell telephone at the secretary's tent. The management is not to blame for this. It made every effort to secure a Bell telephone in order to accommodate the great number of chautauqua attendants who have these telephones in their homes, but has not secured one.

W. E. Collins and the children had a great time Monday morning. Almost a hundred of them were on hand to enjoy a period of organized play and athletics. All children are invited to meet Mr. Collins on the grounds at nine o'clock.

THAYER INFIELD KICKS GAME AWAY

Boots By Shortstop and Third Baseman Enable Indies to Beat Padgett Without the Aid of Hits—Locals Nearly Steal Richardson's Suit.

Thayer's third baseman and shortstop handed the game to the Indies at South Side Park Sunday afternoon, the score being 9 to 6 when the smoke of the battle cleared in the ninth.

Padgett pitched a good game for Thayer, and one that would have won with good support. The Indies only knocked him for four hits, two of these being hits to the infield that Denny beat out.

The locals, however, did excellent work on the paths, stealing everything but "Windy" Richardson's suit. During the afternoon they pilfered eight sacks, Christopher and Denny getting three each.

The Indies also played some good inside ball and took advantage of all the breaks. In the second inning they scored three runs without a hit.

The prettiest play of the game was pulled in the third inning when Clark squeezed Wheeler home. Richardson got the sign and tried to break up the play by calling for a wide pitch. Padgett delivered the ball high but Clark laid it down perfectly. Wheeler had started with Padgett's windup and was nearly to the plate when the ball left Clark's bat.

Patrick pitched a good game for the Indies but not nearly so good as that against Myers Brothers. However, he only wavered once that was in the fifth when the visitors bunched three hits with a base on balls and an error for their three runs. The score:

THAYER INFIELD KICKS GAME AWAY

Boots By Shortstop and Third Basemen Enable Indians to Beat Padgett Without the Aid of Hits—Locals Nearly Steal Richardson's Suit.

Thayer's third baseman and shortstop handed the game to the Indians at South Side Park Sunday afternoon, the score being 9 to 6 when the smoke of the battle cleared in the ninth.

Padgett pitched a good game for Thayer, and one that would have won with good support. The Indians only knocked him for four hits, two of these being hits to the infield that Denny beat out.

The locals, however, did excellent work on the paths, stealing everything but "Windy" Richardson's suit. During the afternoon they pilfered eight sacks, Christopher and Denny getting three each.

The Indians also played some good inside ball and took advantage of all the breaks. In the second inning they scored three runs without a hit.

The prettiest play of the game was pulled in the third inning when Clark squeezed Wheeler home. Richardson got the sign and tried to break up the play by calling for a wide pitch. Padgett delivered the ball high but Clark laid it down perfectly. Wheeler had started with Padgett's windup and was nearly to the plate when the ball left Clark's bat.

Patrick pitched a good game for the Indians but not nearly so good as that against Myers Brothers. However, he only wavered once that was in the fifth when the visitors bunched three hits with a base on balls and an error for their three runs. The score:

STURTEVANT HALL DAMAGED BY FIRE

WALLS OF HISTORIC BUILDING STILL STAND

Fire Discovered Near Midnight Monday by Pres. Rammelkamp—Insurance Carried on Present Day Valuation—Trustees Soon to Rebuild.

Historic Sturtevant Hall at Illinois college was badly damaged by fire, discovered at 11:30 o'clock Monday night. The firemen were more than two hours fighting the flames but the walls of the building are standing and can be used for the reconstruction work. It is a matter for special satisfaction that the tower at the northeast corner of the building was not damaged.

Well Insured. Sturtevant Hall was valued at something more than \$40,000 and the contents at \$10,500. Insurance of 80 per cent was carried on both building and contents. Dr. C. H. Rammelkamp, president of the college, discovered the fire at the hour mentioned, when he

As the Building Appeared in
Early Days.

happened to hear the crackling of flames. He looked from the window of his residence on the campus and saw that Sturtevant Hall was on fire. He turned in the alarm and Chief Hunt sent both trucks to the fire. Three streams were used. The fire had evidently been at work for a considerable time before discovery and the origin is uncertain. The natural theory, however, is that of spontaneous combustion.

Sturtevant Hall housed the chemical laboratory on the west side of the second floor and the biological laboratory on the same side of the first floor. Evidently the fire originated in the chemical laboratory.

President Rammelkamp said that without doubt the trustees would take early action for rebuilding and he said there is every reason to think that the walls have been only slightly damaged and can be used for a reconstructed building. The trustees will count themselves fortunate in having made a revaluation of all buildings together with the contents within the last few months. The amount of insurance carried was correspondingly increased. As indicated above, all insurance is on the 80 per cent basis, so that the loss is well covered. Such arrangements can be made that there will be no inconvenience in taking up the work of the laboratories when the college term begins.

Began Building in 1852. Sturtevant Hall was begun after the burning of the main building of the college in 1852. It was completed in 1857. It was subsequently named in honor of Dr. Julian M. Sturtevant, whose life was so indissolubly yoked with that of the college. Until Jones Memorial building was completed, about 1897, the college chapel was located in Sturtevant Hall. Subsequently this was made into recitation rooms and all of the building was devoted to class room work.

It is the cause for congratulation that so much of the building was saved. While the fire loss had the building been totally destroyed, would have been fairly covered with insurance, there would have been a heavy loss in the historic value of the property to the college.

Sturtevant Hall is one of the oldest college buildings in Illinois, and its preservation along the original lines of architecture means much both to the college and the community. The architect of the building was Rumbold, who about the same time designed the St. Louis court house, famous for its dome. Blue prints of all the college buildings are available and this fact will also simplify the work of rebuilding.

HIGHWAYMEN WERE MARATHON RUNNERS

Robbers Chase Two People Saturday Night—Race Developed Into Marathon in Which the Local Men Apparently Won Out.

Two highwaymen were operating in Jacksonville Saturday night who should be over in Antwerp with the Olympic team according to the story told by a well known young blacksmith.

It seems this young man was in the west part of the city making a call and was returning home about 11 o'clock. Just as he reached the intersection of West College avenue and Westminster street he saw some one running toward him on West College avenue.

The runner was headed east and was going at top speed. As he passed the young blacksmith he had enough breath left to tell him he was pursued by two highwaymen. He then put on more steam and disappeared in the darkness.

The young blacksmith did not have much time to meditate for out of the darkness came the pursuers. Deciding that it was better to be a live coward than a dead hero, the y. b. s. started to run north in Westminster street. One of the highwaymen shouted to the other, "You keep after that one and I'll take this bird."

Away went pursued and pursuer. The last seen of the stranger he cleared the East College avenue subway without touching it. It is probable he made Alexander in record breaking time. It was not learned whether or not the highwayman overtook him.

The race between the other robber and the young blacksmith was a pretty event. Fortunately it was light enough for both runners to avoid trees and telephone poles. The young blacksmith lives on West Lafayette avenue and he outprinted the bandit and reached home in safety. He then telephoned to his uncle, Howard Elliott, who is night captain of police, and told him about the race. The police were unable to locate the robbers and Capt. Elliott is of the opinion that they died of heart disease as a result of the chase.

Sweater time is coming soon. We have the best made at reasonable prices. **FRANK BYRNS Hat Store.**

DR. AND MRS. HARKER IN WESTERN HOTEL FIRE

Dr. and Mrs. J. R. Harker have returned from a stay of several weeks at Manitou, Colo. While there they visited Pike's Peak on the new automobile highway and enjoyed several other interesting trips. They had another experience, however, that could not properly be listed as interesting. They were awakened one morning by smoke coming in the window of their room and found flames near at hand. The hotel was on fire.

Dr. Harker closed the window to stop the draft and he and Mrs. Harker made hasty preparations for exit to the street. All the hotel guests left their rooms in safety. It was about three hours before the flames were extinguished. Only the back part of the building was damaged and it was possible for the management later to provide accommodations for all.

LOCAL MILITIAMEN AT PRACTICE SHOOT

Ten members of Company B, the local militiamen, made excellent showing at practice shoot Sunday at Camp Lincoln rifle range. Capt. Wesley R. James headed the company score with 202, while Carter H. Clark was second with a score of 193. Leslie Moore was third, his score being 170.

Some of the new members of the company made very creditable scores, among the number being Frank Vannier, Harold Cockin and Leslie Moore. Men from Springfield and Danville were also on the range and it is greatly to the credit of the local men that they did better shooting than any of the others practicing Sunday.

Capt. James missed by only eight points qualifying for the title and badge of expert sharpshooter. Clark failed to qualify for a sharpshooters medal by only three points.

The local men expect to return to the rifle range at some date after the state fair closes and it is more than likely that they will be able to return with some of the coveted medals.

STURTEVANT HALL DAMAGED BY FIRE

WALLS OF HISTORIC BUILDING STILL STAND

Fire Discovered Near Midnight Monday by Pres. Rammelkamp—Insurance Carried on Present Day Valuation—Trustees Soon to Rebuild.

Historic Sturtevant Hall at Illinois college was badly damaged by fire, discovered at 11:30 o'clock Monday night. The firemen were more than two hours fighting the flames but the walls of the building are standing and can be used for the reconstruction work. It is a matter of special satisfaction that the tower at the northeast corner of the building was not damaged.

Well Insured.

Sturtevant Hall was valued at something more than \$40,000 and the contents at \$10,500. Insurance of 80 per cent was carried on both building and contents. Dr. C. H. Rammelkamp, president of the college, discovered the fire at the hour mentioned, when he

STURTEVANT HALL As the Building Appeared in Early Days.

happened to hear the crackling of flames. He looked from the window of his residence on the campus and saw that Sturtevant Hall was on fire. He turned in the alarm and Chief Hunt sent both trucks to the fire. Three streams were used. The fire had evidently been at work for a considerable time before discovery and the origin is uncertain. The natural theory, however, is that of spontaneous combustion.

Sturtevant Hall housed the chemical laboratory on the west side of the second floor and the biological laboratory on the same side of the first floor. Evidently the fire originated in the chemical laboratory.

President Rammelkamp said that without doubt the trustees would take early action for rebuilding and he said there is every reason to think that the walls have been only slightly damaged and can be used for a reconstructed building. The trustees will count themselves fortunate in having made a revaluation of all buildings together with the contents within the last few months. The amount of insurance carried was correspondingly increased. As indicated above, all insurance is on the 80 per cent basis, so that the loss is well covered. Such arrangements can be made that there will be no inconvenience in taking up the work of the laboratories when the college term begins.

Began Building in 1852

Sturtevant Hall was begun after the burning of the main building of the college in 1852 and was completed in 1857. It was subsequently named in honor of Dr. Julian M. Sturtevant, whose life was so indissolubly yoked with that of the college. Until Jones Memorial building was completed, about 1897, the college chapel was located in Sturtevant Hall. Subsequently this was made into recitation rooms and all of the building was devoted to class room work.

It is the cause for congratulation that so much of the building was saved. While the fire loss had the building been totally destroyed, would have been fairly covered with insurance, there would have been a heavy loss in the historic value of the property to the college.

Sturtevant Hall is one of the oldest college buildings in Illinois, and its preservation along the original lines of architecture means much both to the college and the community.

The architect of the building was Rumbold, who about the same time designed the St. Louis court house, famous for its dome. Blue prints of all the college buildings are available and this fact will also simplify the work of rebuilding.

LOCAL MILITIAMEN AT PRACTICE SHOOT

Ten members of Company B, the local militiamen, made excellent showing at practice shoot Sunday at Camp Lincoln rifle range. Capt. Wesley R. James headed the company score with 202, while Carter H. Clark was second with a score of 193. Leslie Moore was third, his score being 170.

Some of the new members of the company made very creditable scores, among the number being Frank Vannier, Harold Cockin and Leslie Moore. Men from Springfield and Danville were also on the range and it is greatly to the credit of the local men that they did better shooting than any of the others practicing Sunday.

Capt. James missed by only eight points qualifying for the title and badge of expert sharpshooter. Clark failed to qualify for a sharpshooters medal by only three points.

The local men expect to return to the rifle range at some date after the state fair closes and it is more than likely that they will be able to return with some of the coveted medals.
